May 28, 2020

Supervisor Mandy Grewal
Pittsfield Township
6227 E. Michigan Ave.
Ann Arbor, MI 48108

Dear Supervisor Grewal,

Please be advised that we are establishing a sewer rate increase to cover our revenue requirements for the 2021 budget year.

The Township sewer rates are based on an average cost to provide services. Due to the makeup of Township customers (residential, commercial, private fire service, etc.), sewer rates are based on an average cost (revenue requirements divided by estimated units sold).

The Township sewer rate is calculated using the average cost recovery per unit adjusted by the provisions of the contract and by City ordinance. This therefore will establish the new Township sewer rate of \$6.21/100 cubic feet effective July 1, 2020. The discount for early payment will continue to be offered. The effective rate as a result of the early payment discount is \$5.59/100 cubic feet.

If you need any additional information, please let me know.

Sincerely,

Craig Hupy
Public Services Area Administrator
